

From History to the Future

**LEGEND
SERIES**

Up-to-date design:

a modern outline that brings modernity and usability to the workshop

Innovative DNA:

long-standing high-quality components and tested for 20000 cycles

Future proof:

lifts designed for the TEq-Link workshop connectivity system

Emerging from the best-selling 2-post lifts, the Legend Series consolidates the **engineering knowledge** of Ravaglioli and shapes it into an **innovative package**. **Looking towards the future while always honouring the past**, Ravaglioli has set an important goal for itself - let the performance meet the design.

2-POST LIFTS

Electromechanical

Electronic synchronization.

Truly asymmetric columns designed to optimize the drive through and footprint.

3-stage arms with quick fit and telescopic rubber pads.

Quick nut replacing. New motor plate that allows to remove the screw from the front side of the column with the column standing.

Internal carriages running on lubricated sliding guides, protected from the external environment, that ensures a longer life to the sliding elements.

Equipped with an acoustic anti toe trap system. Free from mechanical foot guards.

Premium quality of components

Aluminum pulley with cooling function.

Long lasting bearings.

50% longer, bronze load nut.

Motors with reinforced and cooling casing.

Solid automatic arm locking.

Minimum routine maintenance

The operating parts require little time for easy replacement or maintenance reducing the risk of error on safety elements.

Guaranteed safety and quality over the time

The lift is equipped with premium components that guarantee durability and maximum safety for the operator.

Smart and flexible installation

Up to 20% improvement in installation time. The electronic synchronization avoids the installation and adjustment of the realignment cable. The lifts can be installed in a flexible way thanks to three width-adjustable positions.

Quick and easy operations

The working bay is free of obstacles and the operations can be performed safely and comfortably.

TEq-Link
connected workshop

A step into the future

Selected models with integrated TEq-Link module which enables to monitor work cycles, trigger alerts for scheduled maintenance and more.
