

VSG launches the Yucon A/C recharging station for the Ravaglioli brand

Sasso Marconi. April 2024 - Vehicle Service Group (VSG), a leader in the motor vehicle equipment industry, launches the Yucon service station for recovering, recycling and recharging refrigerant gases of Ravaglioli brand air conditioning systems.

A Cool Breeze in Your Workshop— Ravaglioli is bringing a real blast of fresh air to its product portfolio by launching a fully automated A/C recharging station on the market. This is a new product for the brand famous in the vehicle lifting and tyre service sector, making its offer to workshops even broader as it is increasingly attentive to the needs and developments of the automotive industry.

The main technical characteristics

“2 gas ready” - Lets you work both with R134a and the latest generation R1234yf refrigerant gases.* It is also compatible with the more modern R456A and R444A gases.
(*Switching to the other configuration is possible by using an optional special retrofit kit.)

It is equipped with advanced connectivity that, thanks to Wi-Fi, lets the machine automatically update itself, receive remote assistance and connect with other devices, such as printers or smartphones.

All activity can be monitored by smartphone or tablet with the DIGITiQ AirCon app, from any spot in the workshop, in this way allowing the operator to perform other activities.

The design details

The steel/metal cabinet features an ergonomic and functional line. It is all enriched by care dedicated to graphic elements that gravitate around the Yucon logo.

The practicality of its use is ensured by the four-wheel structure, with the rear wheels oversized, and the built-in 7” multi-touch interface.

About Ravaglioli

Founded in 1958 in Sasso Marconi (BO) with the aim of designing and marketing vehicle lifting equipment, Ravaglioli has expanded its offering over the years to become Europe's leading builder of vehicle lifts and one of the main companies in the production of equipment for tyre shops and diagnostics (vehicle control and wheel alignment). Member of Vehicle Service Group (VSG) since 2016, it is one of the leading brands in the VSG EMEA division. In addition to its historical headquarters in the hills of Bologna, it has three additional production units in Ferrara, Rolo (Reggio Emilia) and Turin, and three subsidiaries in France, Germany and the UK. Additional information is available at www.ravaglioli.com.

About Vehicle Service Group

Part of Dover Corporation's Engineered Systems segment, VSG is a strong, diverse and dynamic global leader in the vehicle service industry. It comprises 8 major vehicle lifting, wheel service and collision repair brands: Rotary, Ravaglioli, Space, Chief, Forward, Direct-Lift, Revolution and Hanmecson. Headquartered in Downers Grove, Illinois, VSG has operations worldwide, including ISO9001 certified manufacturing centers in North America, Europe and Asia. Additional information is available at www.vsgdover.com.
